480 x 480 mm

Attractive speaker stand with flat steel plate, useful carrying handle and cable routing. The stand is ideally suited for use where space is at a premium. The height is fixed with a safety hook and secured by a clamping screw for a vibration-free and firm fit. The slim design of the clamp allows space-saving transport and ensures a stylish appearance. The usable height is between 1,135 and 1,835 mm and is adjusted in 5 steps of 140 mm. The patented expanding mandrel with quick-release fastener ensures a tight fit of the speaker cabinet. The plastic expanding splints also ensure a vibration-free connection between the speaker and the tube. The maximum load capacity at full extension is 30 kg.
